About St. Marys Community Players

With a history dating back to 1974, SMCP is a not-for-profit, volunteer organization with the strong vision of enriching, enlivening and engaging the community of St. Marys and beyond. It prides itself on creating quality theatrical experiences for its audience and participants. In recent years, it can also claim a record-making number of awards for its 2015 production of 'Cabaret'. Welcoming to newcomers, SMCP also values the outstanding contributions of volunteers who have dedicated themselves to the organization for years, and in several cases – decades. With a mix of the new and the experienced, and a mix of tradition and exploration, SMCP looks towards a future that embraces all the good things that 'community' and 'theatre' have to offer. **SMCP's motto:** *The best in each of us, nurturing all of us.*

About your Teacher

Liane Gregory-Sterritt has been teaching Improv Comedy for years in Toronto and Southwestern Ontario. Liane is passionate about bringing out the very best in her students by creating a fun-yet-focused team environment where all can explore, expand and excel. Liane is a graduate of The Second City (Toronto) Master Class. She has also studied acting, writing, voice, and character-clowning (Pochinko Method). Her experience as an actor, director, writer, character clown, producer and teacher provides Liane with the skills to assist all her students to move towards the Improv 'sweet spot'. Liane stresses a team-focused and respectful environment that provides the opportunities for the courageous exploration of each student's abilities and uniqueness. Her style is akin to a mother eagle: nurturing yet firmly intent on the goal of soaring to new heights – and having a blast doing it all.

About this Beginner/Intermediate Level

This offering of a 'combo' class of Beginner/Intermediate is to enhance the learnings for both Beginners and Intermediate students. The Beginners get to see the skills of the Intermediate students. The Intermediate students get to re-inforce their own learnings by seeing how the Beginners tackle new skills. It's a WIN-WIN!

Also, new this year!

Customized Learning Journals – To capture your notes on games we play and your own challenges, insights and 'key takeaways'.

Video Review Class – Our last class will be 2 weeks after the shows to review the show video and see what learnings we can glean.
