MARCH 30	Save the date: Games Night & Pop-up Store Stay tuned for more details for an awesome Family Fun night!

The Principal’s Corner

Community Meeting is TONIGHT, March 8

Join us in the Ardmore gym tonight for our next monthly Community Meeting to discuss our progress with the PBIS reset. We will structure the meeting in the same way that we did in February – a brief explanation of data and next steps, followed by plenty of time for Q&A with school administration.

Help to prevent illnesses

If your child is sick with fever or vomiting, please refrain from sending them to school for at least 24 hours. This will help keep sickness to a minimum at our school.

Virtue of the month

Forgiveness

“Forgive others, not because they deserve forgiveness, but because you deserve peace.” – Jonathan Lockwood Huie

Ask your child: Why is it important to forgive others? To forgive ourselves?

Unleash Your Curiosity!

Science Fair/STEM Night: Friday, March 23, 6:00-8:30 p.m.

Everyone is invited! Come feed the worms, see how a salmon is dissected, look through a microscope, go on an insect safari, show your family how you can code, learn what it takes to be a crime scene investigator, and much more! Visit each table and get a sticker to be entered in a drawing for fun prizes!

This event is for everyone – you'll also see some of the science or engineering all students have done this year in their classroom.

If you still want to do a project, turn in a yellow registration form to the school office as soon as possible. For those who need it, a help/work session will be held over the lunch hour recess on Wednesday, March 14.

New this year: Students will tour other students' projects during the day on Friday, March 23. Teachers are being asked to have students present their projects to their peers in class. At the evening event, students are free to explore our community scientist booths and visit any displays they wish.

Bring your finished projects to school on Thursday, March 22.

REMEMBER:

- All projects with liquids or other messy substances must be displayed on a tray.
- Bring a towel or roll of paper towels to the Science Fair to be used for quick clean up in case of a spill. These should be kept under the table under the science fair project.
- Please do not bring live animals to school. Instead, take pictures of your experiment in progress.
- Please take your science project home at the end of the night!

EVENT BOOTHS:

Friends of Issaquah Salmon Hatchery
Oxbow Farms – Feed the Worms!
Mad Science
Bellevue Police Crime Lab (CSI)
City of Bellevue Stream Team and Recycling
Interlake High School Robotics team
Insect Safari
Family hands-on engineering kits
Coding – show your stuff
And more!

* Be sure to have dinner before you come; there is no food at this event.

The Ardmore Science Fair and STEM Night is a PTSA-sponsored event.
