The Song

IN THEATERS SEPTEMBER 26, 2014

THE SONG is a music-driven romantic drama about things we all pursue—love and meaning.

THE SONG was filmed on location in Nashville and Kentucky – known for American music and family. Both figure heavily in the film. Music is more than a score in *THE SONG*, it is the backdrop from which the story unfolds. Viewers who love American music, indie singer-song-writers or dream of the allure of the road, will especially love *THE SONG*.
