

Experiential Gospel of John Kit

\$29
(\$50 value)

Does your reading of God's word **move beyond** simply knowing the truth to **really experiencing it**?

The Experiential Gospel of John is designed to engage followers of Jesus as they impart both the gospel and live out a relevant, daily faith (1 Thessalonians 2:7-8). This resource is unique because the exercises in each chapter were written with the specific goal of engaging you in a Spirit-empowered faith. Why is this important? It's only an experiential, Spirit-empowered faith that can change our lives and the lives of those around us.
