Career Pathway Explorations

With so much going on in the world today, focused career decision making is more important than ever. In this course we will explore the elements to consider when choosing a career pathway. Which job best suits me? What schedule would you like? What level of responsibility works best for you? How much do you need to earn to support the lifestyle you want? These questions and many more will be examined and answered in this online class.

This 12.5 hour course will be delivered using all of the following formats:

**Asynchronous online** - Participants are to complete the self-paced online modules, between the start and end dates.

(12.5 hours: 2 hours mandatory class meeting; 10.5 hours self-paced online course to be completed within a 1-week period.)
