**A FRESH PERSPECTIVE ON PARENTING!**

Join us for nine weeks of parenting support!

This course is based on Danny & Sheri Silk's Loving Our Kids On Purpose DVD course, along with supplemental tools and skills utilized at Hearts With A Mission

Danny & Sheri Silk

Few relationships require as much from us as the parenting relationship. The greatest challenge for parents is learning to remain powerful in any situation. This skill lowers anxiety and allows parents to stay focused on what must be their chief objective: teaching their children to control themselves, while showing them how much they are loved.

Our parenting resources are aimed at helping parents shift from the impossible mission of controlling their children to learning to control themselves no matter what their children decide to do.
